

WHAT IS A GLOBALHACK HACKATHON?

GlobalHack is building a better tech ecosystem through hackathons. Our events bring together developers, designers, and entrepreneurs to solve real-world, civic-minded problems. GlobalHack is a 501(c)(3) nonprofit organization. What separates GlobalHack from other, similar events is our participants compete to solve a single challenge posed by our prize sponsors, with the winners competing for cash prizes in exchange for the software that is developed over the course of the weekend.
